SPECIAL PERMIT APPLICATION

Mike and Lynn Price

Purpose Statement

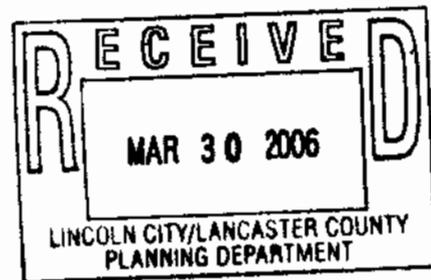

The purpose of this application for a Special Permit is to allow the location and operation of a tree service to replace the existing 2K Outdoor Living Garden Center with a tree service pursuant to Section 27.63.770 of the LMC assuming the text of the LMC relating to a tree service is ultimately approved by the City Council.

Tree service shall mean a building or premises used primarily in support of a business engaged in tree and stump removal, tree and shrub trimming, stump grinding, pin oak injection, insect and disease control, tree nutrients, processing wood chips and firewood, and land clearing. The premises may be used for the processing, and storage of tree related products and byproducts produced only by the business located on the premises and the parking of trucks, grinders and related equipment, but no retail sales of products shall be allowed on the premises.

Almost all of the work occurs off premises. The employees come to the premises in the morning and take the trucks and related equipment to the off premises work sites, returning to the premises at the close of the workday. Very rarely will any work be done on premises, but very occasionally some tub grinding and sawing would occur. The LMC noise ordinance will be followed at such times. As shown on the drawing, landscaping and tree blocks will provide buffering from adjacent properties.

The owners of the business will remodel the "office retail building" into a residence on the premises, which will aid in the control of the business and premises. No on premises retail sales will be allowed.

Re: Special Permit Application/Mike and Lynn Price/Tree Service
6700 Bennet Road
Our File No.: 24829.49712

Dear Mr. Krout:

Enclosed is an application for a Special Permit to place a tree service at the above-mentioned location. Also enclosed is the filing fee in the amount of \$740. This application is a follow on to the application for a text amendment to allow a tree service by special permit, which will be heard by the Planning Commission on April 12.

The application is being made at this time in order to attempt to save time in the review process should the City Council approve the text amendment.

As you will recall, during our conference of March 21 with Mike and Lynn Price, Mike DeKalb suggested that we might be able to use the drawings which were the subject of the existing approved special permit on the subject property. We have used the drawing since the proposed use of the subject property is remarkably similar to the existing use. The scale used on the drawing appears to be 1/2 inch equals 50 feet. Thank you for your consideration.

Very truly yours,

Charles D. Humble
